

CLEANING SWATCH INSTRUCTIONS

Thank you for your order! Many teachers have requested cleaning cloths so we are including cleaning swatches in the recorders this year at no additional charge.

With the hole of the cleaning rod at the top, insert the cleaning rod through the small hole in the cleaning swatch about one inch. Fold the cloth, take the edge and thread it through the hole in the cleaning rod. Pull the cloth through the hole as far as possible. Threading the cloth may be a little bit tricky but once the cloth is threaded and pulled through the hole, it will be secure and can be easily used for some time.

We understand that some teachers prefer to clean the recorders by submerging them in warm, soapy water and the rinsing them in clear water. The cleaning rods make excellent “rhythm rods” for tapping rhythms as well as batons for conducting.

Please remember to check your order before passing the items out to your students. Students sometimes forget which items they ordered or change their minds.

We greatly appreciate having you as a customer. If you have questions or we may be of help in any way, please call 888-697-1333 or email us at info@maciepublishing.com. We would enjoy hearing from you!

Thank you.
